

Tackable Surfaces

Sound Acoustic Solutions offers acoustic boards specifically designed for tackable surfaces or for high impact areas. Higher in density, these boards are able to handle more abuse than standard fiberglass boards.

Three types of boards are available, **Tack board**, **Dual Density Board** or **Micore Mineral Fiber Board**.

SilentFiber™ Tack Board

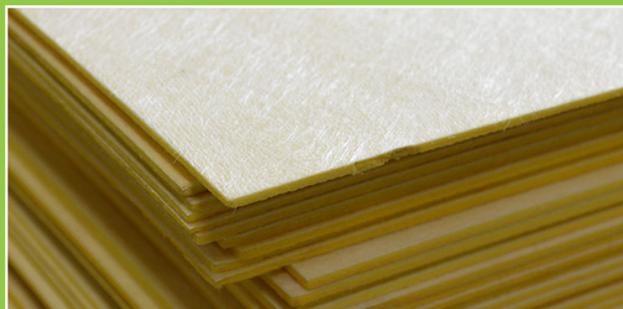

A number of options are available for high density tack boards. Our 16# 1/8" thick tackboard is the perfect choice for the interior contractor looking to add a layer of fiberglass to provide a tackable surface, or impact resistance and keeping strong acoustical properties. Offered with a white mat face, our standard Silent Fiber 1/8" tackboard is offered in 16# density at 49"x121" and 49" x 97" dimension.

SilentFiber™ Dual Density Board

SilentFiber™ Dual Density Fiberglass Boards are medium impact resistant and designed for high traffic areas where the durability of acoustical treatments is of high importance. Stocked tackable fiberglass boards come with a 6# fiberglass core layered with a 16# fiberglass board face. Tackable boards may be custom ordered with varying densities as well. Black tackboard face is also available.

USG Micore® Mineral Fiber Board

Micore® Mineral Fiber Board is a superior substrate for fabric and vinyl-covered wall-panels, office dividers and tackboards. Micore® is nearly 50% lighter than particle board, allowing for easier handling and lower freight rates. The inorganic mineral fibers resist moisture, minimizing expansion and warpage which are consistent issues with particle boards. Micore® Mineral Fiber Board is easily cut to size and shape specifications using standard equipment while adapting readily to last minute design charges.

Rev 1015

SilentFiber™ Tack board

Thickness	Finish	Density	Size	Pkg.
1/8"	100g mat	16#	49" x 121"	1
1/8"	100g mat	16#	49" x 97"	1

SilentFiber™ Dual Density Board*

Thickness	Finish	Density	Size	Pkg.
7/8"	100g mat	6# / 16#	49" x 121", 49" x 97"	1
1"	100g mat	6# / 16#	49" x 121", 49" x 97"	1
1 1/8"	100g mat	6# / 16#	49" x 121", 49" x 97"	1
2"	100g mat	6# / 16#	49" x 121", 49" x 97"	1

NRC info available on request. Black, white or plain face available.

Micore Mineral Fiber Board

Thickness	Type	Density	Size	Pkg.
1/2"	M300	23#	48" x 96"	5
3/4"	M300	23#	48" x 96"	5
3/4"	M160	18#	48" x 96"	5

Micore M300 Acoustical Performance

Thickness	STC Rating	NRC (min.)
1/2"	25	0.30
3/4"	28	0.30

Micore M160 Acoustical Performance

Thickness	STC Rating	NRC (min.)
1/2"	24	0.30
3/4"	26	0.50

Other acoustical products available from Sound Acoustic Solutions:

SilentCeiling™ Black (black fiberglass ceiling tiles)

SilentWrap™ (mass-loaded vinyl)

SilentImpact™ (rubber underlayment material)

SilentFIBER™ Wall Panels (sound absorption wall panels)
