

## SilentFiber™ Poly Panel

SilentFiber™ Poly Panel a polyester board wrapped in an acoustic fabric. The polyester board core is manufactured from 100% polyester fiber, bonded by using heat instead of traditional chemical binders. Glues tend to break down over time, releasing formaldehyde which may create health concerns.

The Poly board core contains no formaldehyde or binders. An acoustic fabric is adhered to the poly board core with no extra chemicals for edge hardening.

### Features:

- Formaldehyde-Free
- Environmentally-Friendly
- No binding agents or odors
- Made from 100% recyclable fire Rated material
- No risk of skin irritation or respiratory problems
- Naturally resistant to moisture, vermin, insects, mold and bacteria
- Extremely resilient and impact resistant
- Can be used as a tack board
- Not manufactured of "Itchy" fiberglass

### Product Info:

- NRC rating of 0.70
- 1" thick, 24" x 48"
- 6 lb. density
- Sold in packs of 10
- Square edge

### Colors Available:

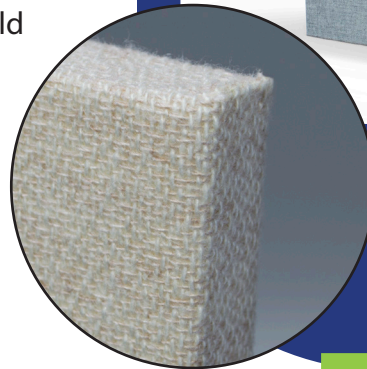

- Cream
- Gray
