

SilentFiber™ Dual Density Fiberglass Board

Silent Fiber™ dual density fiberglass boards are medium impact resistant and designed for high traffic areas where durability of acoustical treatments is of high importance. Each tackable fiberglass board comes with a 6# fiberglass core layered with a 16# fiberglass board face.

Features

- Acoustical core of 6# density rigid fiberglass
- Facing: 16# density molded fiberglass

Benefits

SilentFiber™ boards are available in many different sizes and densities. Boards are easily cut to size with a utility knife. Boards are also class A fire rated.

Applications

- Office workstations
- Commercial hallways
- Schools
- Theatres
