

SilentFiber™ Dual Density Fiberglass Board

Silent Fiber™ dual density fiberglass boards are medium impact resistant and designed for high traffic areas where durability of acoustical treatments is of high importance. Each tackable fiberglass board comes with a 6# fiberglass core layered with a 18# fiberglass board face*.

Features

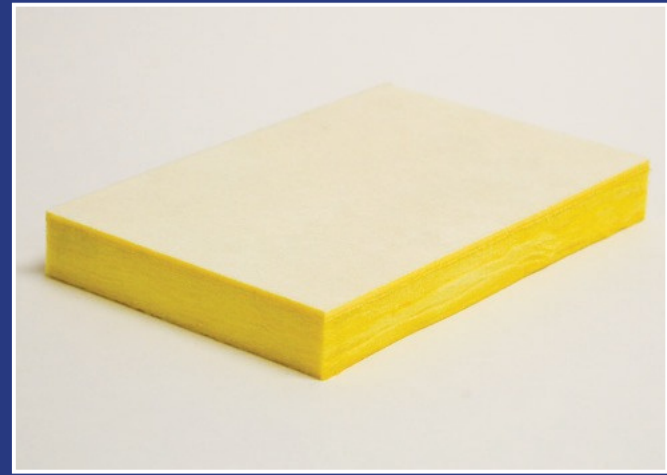

- Acoustical core of 6# density rigid fiberglass
- Facing: 16# density molded fiberglass
- Class A Fire Rating E84
Flame Spread Index 10
Smoke Developed Index 5
- Available in dimensions up to 49" x 121"
- Available in formaldehyde free format

Benefits

SilentFiber™ boards are available in many different sizes and densities. Boards are easily cut to size with a utility knife. Boards are also class A fire rated.

Applications

- Office workstations
- Commercial hallways
- Schools
- Theaters

Thickness	Octave Band Frequencies, HZ						NRC
